

SPECTRUM FILM SCHOOL

Mobile App Development

Course Outline

Our diploma and certificate program covers various aspects of mobile app development, including design, development, testing, and deployment. Students will learn programming languages such as Java, Swift, and Kotlin, as well as mobile app development frameworks and tools like React Native, Flutter, and Xcode. The program also covers user interface and user experience (UI/UX) design, database management, and cloud integration.

Learning Outcomes

Upon completion of the diploma and certificate program, students will be able to:

- Design and develop mobile applications for various platforms
- Apply user interface and user experience design principles to create engaging and user-friendly applications
- Use mobile app development frameworks and tools like React Native, Flutter, and Xcode
- Understand and apply database management principles to store and retrieve data in mobile applications
- Deploy mobile applications to app stores like Google Play Store and Apple App Store

Career Options:

Graduates of our diploma and certificate program are well-equipped to pursue various careers in the mobile app development industry. Some career options include:

- Mobile App Developer
- Mobile App Designer
- Mobile App Project Manager
- UI/UX Designer for Mobile Applications
- Mobile App Quality Assurance Specialist

Facilities:

At Spectrum Film School, we provide our computer programming students with state-of-the-art facilities that include:

- Fully equipped computer labs
- Access to industry-standard software and tools
- High-speed internet connection
- Supportive faculty and staff
