# SPECTRUM FILM SCHOOL

UI UX Design

Course Outline

The diploma and certificate in UI/UX Design program covers the fundamentals of user interface (UI) and user experience (UX) design, including design thinking, wireframing, prototyping, and user testing. You'll learn to design for multiple devices and platforms, and gain expertise in industry-standard software tools such as Sketch, Figma, and Adobe XD. The program also includes a focus on design research and analysis, enabling you to create user-centered designs that solve real-world problems.

Learning Outcomes	By the end of this program, you will be able to: • Develop a deep understanding of user needs and design solutions that meet those needs • Create wireframes, prototypes, and high-fidelity designs using industry-standard software • Understand the principles of design thinking and apply them to your design process • Conduct user research and analysis to inform your design decisions • Design for multiple platforms and devices, including web and mobile
Career Options:	With a diploma in UI/UX Design, you'll be prepared for a variety of design roles in industries such as: • Tech • E-commerce, and digital marketing • UI/UX designers • Interaction designers • Product designers
Facilities:	• Students have access to state-of-the-art facilities and equipment, including high-end computers. You will have access to industry-standard software and hardware, including high-end workstations, graphics tablets, and motion capture equipment.
How to Apply:	To apply for our Film Production Diploma or Certificate program, please visit our online application form page and fill in the required details. You will need to provide **Scanned National ID**, **Scanned Birth Certificate**, **Scanned KCSE result slip**, **Passport photo**, **Scanned Valid Passport** and **Scanned Academic Transcript** depending on the students nationality. Our admissions team will review your application and will contact you via the provided email.
