

SPECTRUM FILM SCHOOL

VR AR Design

Course Outline

Our diploma and certificate program covers a range of topics, including 3D modeling, interactive design, game design, spatial audio, and programming for VR/AR applications. Students will gain practical experience working on real-world projects and will have the opportunity to specialize in their area of interest.

Learning Outcomes

Upon completion of the diploma and certificate program, students will be able to:

- Create immersive VR/AR experiences using industry-standard tools and techniques
- Design interactive interfaces for VR/AR applications
- Implement spatial audio and haptic feedback to enhance user experience
- Program and develop applications for VR/AR platforms
- Collaborate with teams and communicate effectively with stakeholders

Career Options:

Graduates of our diploma and certificate program are well-equipped to pursue a variety of careers in the VR/AR industry. Some career options include:

- VR/AR Developer
- UX Designer
- Game Designer
- Interaction Designer
- 3D Artist

Facilities:

At Spectrum Film School, we provide our computer programming students with state-of-the-art facilities that include:

- Fully equipped computer labs with VR/AR hardware and software
- Access to industry-standard tools and techniques
- High-speed internet connection
- Supportive faculty and staff
