

SPECTRUM FILM SCHOOL

Web Development

Course Outline

Our diploma and certificate program covers a range of topics, including HTML, CSS, JavaScript, web frameworks, server-side scripting languages, and databases. Students will learn how to develop and deploy websites and web applications, create responsive designs, and optimize website performance. In addition, students will have the opportunity to work on real-world projects and will be able to specialize in their area of interest.

Learning Outcomes

Upon completion of the diploma and certificate program, students will be able to:

- Build interactive, responsive, and dynamic websites and web applications
- Create responsive designs using front-end frameworks and libraries
- Develop server-side scripts using languages such as PHP and Python
- Work with databases to store and retrieve information
- Deploy websites and web applications to web servers
- Collaborate with teams and communicate effectively with stakeholders

Career Options:

Graduates of our diploma and certificate program are well-equipped to pursue a variety of careers in the web development field. Some career options include:

- Front-end Developer
- Back-end Developer
- Full-stack Developer
- Web Application Developer
- Web Designer

Facilities:

At Spectrum Film School, we provide our computer programming students with state-of-the-art facilities that include:

- Fully equipped computer labs
- Access to industry-standard software and tools
- High-speed internet connection
- Supportive faculty and staff
